## PenChecks Celebrates BenePay's 5<sup>th</sup> Birthday!

PenChecks has been processing outsourced benefit distributions for the better part of two decades now, but it was five years ago today that PenChecks revolutionized the industry and released its proprietary online distribution processing system, *BenePay*.

It was then and continues to be the most advanced online distribution processing and management system in the country for institutions, TPAs, and Plan Sponsors. Constant upgrades and system improvements over the past five years have continued to make PenChecks the industry leader in distribution services and processing. Distributions of virtually any kind, for any amounts, from any custodian can be processed on the *BenePay* system. [Click here](#) to learn more.

 to learn more!

In addition to the release of BenePay five years ago, PenChecks shortly thereafter, introduced its *Participant Benefit Election Site* - an online website that participants can use to securely logon, make a benefit election and receive their retirement distribution funds in the fastest manner possible. In order to help participants make smarter choices with their retirement money, the *Participant Benefit Election Site* even allows one to set up a brand new IRA account during their online benefit election session. To learn more about the PenChecks *Participant Benefit Election Site*, [click here](#).

**And the best is yet to come!** Later this year, PenChecks will release the next generation of *BenePay*... the **PenChecks Pay Portal!** Affectionately referred to as **P3**, this all new, entirely redesigned online super-system with incredibly friendly and fast user interface will continue to be the gold standard in online distribution processing. Look for more information about P3 coming soon!
