### What Is The National Registry?

The National Registry is a nationwide, secure database listing of retirement plan account balances that have been left unclaimed. This website is designed to help match employers that have abandoned or forgotten employee retirement account balances with the former employees who they rightfully belong to.

### Fast...Free...Safe...and Easy!

The National Registry of Unclaimed Retirement Benefits is a secure search website designed to help both employers and former employees. Employers can register names, for free, of former employees who have left money with them and former employees can perform a free, secure database search to determine if they may be entitled to any unpaid retirement account money.

### Why Use The National Registry?

In addition to being the only free, web-based search tool that works for both former employees and plan sponsors (or the TPA/administrators that work on their behalf), NRURB will also automatically notify all parties when a missing participant does locate their funds on the site.

### Doing Our Part...

NRURB is a free public service established and maintained by PenChecks, Inc., the largest provider of Default/Missing Participant IRAs in the country. Visit the [National Registry Website](#) or contact us toll-free at (877) 462-2745 to:

- Learn More ([Click here](#) for our FAQs)
- Register former/missing plan participant account balances
- Perform secure, anonymous searches for unclaimed funds
