Using [PenChecks](#) for all your distribution processing does more than just give you and your participants the fastest and most efficient method of distributing plan assets. It does more than reduce your company's risk in handling complex transactions and tax withholdings. It even does more than just reduce your expenses, increase your profitability and save you tons of time...

**Processing distributions with PenChecks saves you valuable SPACE and is good for the environment!** All data from distributions processed by PenChecks is digitally secured, encrypted and permanently stored.

No more storing dilapidated file boxes full of old paper records that you *have to* keep but will rarely ever look at. And, if you're already making the move towards a paperless office, you don't have to spend time and energy scanning and saving all of the paperwork that you would otherwise still be working with.

***Go from this ... to this!***

When you process a distribution with PenChecks, regardless if it is a Rollover, Lump Sum, Default / Missing Participant IRA, Recurring Benefit Payment or a Stale-Dated Check Resolution, PenChecks will store all information using the highest security and encryption standards available. [PenChecks](#) keeps this data forever. And you have 24/7/365 access to your records anytime you need it - all you need is a computer. Or if you prefer just call us on our toll free number (800) 541-3938 for any information you desire. Need to retrieve old 1099R copies for participants? Need to verify or provide proof of processed payouts for an auditor? No problem, processing your distributions with PenChecks makes that a snap.

**PenChecks is good for your company AND good for the environment!**
